## New Head of Engineering / Product Management at PARAT Solutions GmbH – Christian Weiß

### Return to the roots

On March 1st, 2024, Christian Weiß became the new Head of Engineering and Product Management at PARAT Solutions GmbH, succeeding Dominik Mösl who is moving on to new professional challenges.

Mr. Weiß is no stranger to PARAT, as he completed his education with the company between 1998 and 2002. He later worked as a product manager for the cases, bags, and safety lamps segment from 2011 until 2019. In his recent role, he was responsible for creating and managing the product range, developing and implementing product strategies, as well as lifecycle management.

Between 2019 and re-entering PARAT in March 2024, Mr. Weiß worked for a prestigious drilling tools manufacturer, where he served as the Head of Product Management. During his tenure, he significantly improved the product range and was responsible for ensuring product quality, as well as managing international suppliers, projects, and quality control. He successfully implemented these responsibilities alongside his team.

Mr. Weiß is an expert in engineering and product management. His many years of experience have honed his skills and knowledge, particularly in the tools and accessories market. He has a methodical working style, and his forward-thinking approach to tomorrow's markets will help expand the product range of the PARAT brand. Mr. Weiß has extensive experience working with suppliers and partners in both Europe and the Far East, and he has a strong understanding of the technical feasibility of products.

In his new role at PARAT, Mr. Weiß aims to establish agile and quick development processes to advance innovations in the storage solutions segment for all markets.

"We are pleased to welcome Mr. Weiß back to our team," says Christian Wimmer and Bertram Göb, the management board. "His expertise and skills will significantly contribute to strengthening our position as a leading innovator in the case systems and education segments. We are confident that his leadership in the engineering/product management segment will help create sustainable storage solutions and optimize our product portfolio."

Mr. Weiß and the entire PARAT team are excited to lead our products to success.
